Impact Portfolios

Equity and Inclusion Portfolio (formerly Economic Mobility)

Seeks to narrow inequalities in society by creating economic opportunity that advances equity and inclusion.

WEIGHTED AVERAGE MANAGEMENT FEE¹

0.49% (49 basis points)

OBJECTIVES

Risk Profile: Moderate

Strategy: Seeks to provide long-term capital growth and reasonable capital preservation by investing in companies and municipalities taking the lead in providing fair wages, healthcare, affordable mortgages, and other benefits to employees and community members. The portfolio consists of mutual funds, ETFs, fixed income and cash funds.

Social Impact:

- Helps narrow rising inequalities in society by financing projects and municipal infrastructure benefiting low-income communities, including for first-time home purchase, small business expansion and other services.
- Encourages fair wage practice by investing in companies working to improve pay equity by providing employees a fair wage and benefits and engaging with companies for increased diversity in the workforce.
- Provides a potential source of excess return by investing in companies developing products or solutions designed to aid the least advantaged in society.

Grantmaking: Appropriate for donors who plan to recommend granting the balance of the account within 10 years.

Impact Portfolios

Environmental Stewardship Portfolio

Manages climate change risks and protects and conserves natural resources

WEIGHTED AVERAGE MANAGEMENT FEE¹

0.53% (53 basis points)

OBJECTIVES

Risk Profile: Moderate

Strategy: Seeks to provide long-term capital growth and reasonable capital preservation by investing in organizations that are best positioned to cope with rising climate risks. This diversified portfolio screens out companies and municipalities with heightened climate-related risk exposure, who may see increased operational or regulatory disruptions as global temperatures continue to rise. It invests in environmentally responsible companies taking the lead in reducing their carbon emissions and conserving resources. The portfolio consists of a mix of mutual funds, ETFs, fixed income and cash funds.

Social Impact:

- **Develops solutions** for improving resource efficiency by funding renewable energy and other critical infrastructure to combat climate change.
- **Aids the transition to a more sustainable economy** by funding investments in companies and projects that are driving a reduction in greenhouse gas emissions and resource consumption, as well as engaging corporations and municipalities to improve their environmental practices and policies.
- **Provides a potential source of excess return** by investing in companies developing solutions to climate change challenges and using resource efficiency as a competitive advantage.

Grantmaking: Appropriate for donors who plan to recommend granting the balance of the account within 10 years.

Gender Lens Portfolio

Supports the advancement of women in the workplace and beyond

WEIGHTED AVERAGE MANAGEMENT FEE¹

0.55% (55 basis points)

OBJECTIVES

Risk Profile: Moderate

Strategy: Seeks to provide long-term capital growth and reasonable capital preservation while fostering advancement for women, with a particular focus on women in the workplace. The strategy seeks to achieve long-term capital growth and reasonable capital preservation through a diversified pool of mutual funds, ETFs, fixed income and cash funds.

Social Impact:

- **Invests** in companies providing opportunity for advancement for women throughout their organization.
- **Lends** capital to businesses led by women or promoting the well-being of women and girls.
- **Achieves** strong financial performance and demonstrates environmental and social risk management under the leadership of female investment managers.
- **Encourages** corporate policy changes to narrow the gender pay gap and facilitate advancement for women.

Grantmaking: Appropriate for donors who plan to recommend granting the balance of the account within 10 years.

Investment Descriptions and Performance

Impact Portfolios

Broad Social Impact Portfolio

Advances solutions to global challenges, including conservation, financial inclusion and access to healthcare

WEIGHTED AVERAGE MANAGEMENT FEE¹

0.62% (62 basis points)

OBJECTIVES

Risk Profile: Growth/higher risk and potential for highest return.

Strategy: Seeks to provide long-term capital growth and reasonable capital preservation by investing in organizations that help solve global challenges, and that fund private impact investments through an allocation of equities, bonds and/or international investments. The portfolio screens out companies with a poor track record in fair wage practice and environmental stewardship, and engages with companies to improve their treatment of their employees and communities. This portfolio consists of a diversified mix of mutual funds, ETFs, fixed income and direct private investment vehicles.

Social Impact:

- **Improves opportunities for the underserved** through organizations offering direct loans to low-income families and small businesses that do not have access to formal banking and credit, dramatically increasing their opportunities for advancement.
- **Bolsters essential community infrastructure** by investing in schools, healthcare and efforts to conserve finite natural resources.
- **Provides a potential source of excess return** by investing in companies developing products and services to aid the disadvantaged, and exploring solutions to global challenges such as healthcare, conservation and financial inclusion.

Grantmaking: Appropriate for donors who plan to recommend granting the balance of the account within 10 years.

INVESTMENTS

- DFA International Sustainability Core 1 Portfolio
- Calvert Emerging Markets Equity Fund
- TIAA-CREF Core Impact Bond Fund
- CCM Community Impact Bond Fund
- Advance Global Capital Fund
- Enterprise Loan Fund, L.P.
- Cash and cash equivalents

TARGET ALLOCATION²

- 42% – US Equities
- 23% – International Equities
- 20% – Fixed Income
- 10% – Private Investments*
- 5% – Cash and Cash Equivalents

PERFORMANCE³ (AS OF 12/31/21)

* The private investment allocation may be temporarily shifted to public equities due to operational considerations associated with private investments.

ENDNOTES

- ¹ The Weighted Average Management Fee is the overall portfolio cost based on underlying expense ratios and their weighted allocations. NPT recalculates this fee periodically throughout the year. In addition to the underlying investment costs, there is a 0.15% investment advisory fee.
- ² Investment allocation tactical flexibility of +/- 10%
- ³ These performance figures for the time periods of 1, 3, and 5 years are a blended performance of model and actual performance, are for illustration purposes only, and do not constitute professional investment advice. Model performance and past performance are not indications of future results and may never have been or will be achieved. See EndNote Disclaimer (1): 1-, 3-, and 5-year blended performance for additional information on the limitations and characteristics of the blended performance.

DISCLAIMER¹

The model performance has been prepared at the request of National Philanthropic Trust for its exclusive use and the use of its donors and is not for general distribution. The model assumes the inception of the model portfolio occurred 5 years from the date of the reporting period. The model performance is not representative of actual returns and interpretation of results should take into consideration the limitations inherent in the results of the model. The model performance does not represent the trading of investor assets and does not account for the timing of investment flows. The model performance does not reflect the impact that material economic and market factors had or might have had on decision making if actual investor money had been managed.

The model performance accounts for reinvestment of income and capital-gains distributions and assumes quarterly rebalancing. The model performance figures are annualized on a 1-, 3- and 5-year basis. The model performance accounts for a 0.15% investment advisory fee, but does not account for NPT charitable admin fees, trading costs or transaction costs associated with the management of the underlying portfolio. Performance of the DAF's investments may be lower or higher.

Model performance figures are replaced by actual performance figures starting November 2019, which is the first full month of available actual performance figures. Actual performance figures are annualized on a 1-, 3- and 5-year basis and calculated using time weighted return ("TWR"), net of fees which include the 0.15% investment advisory fee, trading costs, and transaction costs associated with the management of the underlying portfolio. The actual performance figures do not include the NPT charitable admin fees. The model and actual results together constitute the blended performance. Neither model performance nor past actual performance is an indication of future performance.

Investing in this portfolio involves risk. The principal value of investment will fluctuate and may experience loss of capital. Market values include accrued interest. Performance returns are annualized and calculated using TWR, net of fees. Asset level returns are gross of fees.

ENDNOTES (continued)

⁴ The Weighted Average Management Fee is the overall portfolio cost based on underlying expense ratios of each manager and their target weighted allocations. NPT may recalculate this fee periodically throughout the year. In addition to the underlying portfolio costs, there is a 0.10% investment advisory fee and trading/transaction costs up to 4 cents per share cost on all mutual funds and ETFs.

⁵ Investment allocation tactical flexibility of +/- 5%

⁶ These performance figures for the time periods of 1, 3 and 5 years are a blend of model and actual net of fee performance, are for illustration purposes only, and do not constitute professional investment advice. Model performance and past performance are not indications of future results and may never be achieved. Model performance may never have been achieved. See EndNote Disclaimer (2): 1-, 3- and 5-Year blended performance for additional information on the limitations and characteristics of the blended performance.

DISCLAIMER²

The model performance has been prepared at the request of National Philanthropic Trust for its exclusive use and is not for general distribution. The model assumes the inception of the model portfolio occurred 5 years from the date of the reporting period, extends through March 2021 and is representative of the existing portfolio at the time of each quarter end. The model performance is not representative of actual returns and interpretation of results should take into consideration the limitations inherent in the results of the model. The model performance does not represent the trading of investor assets and does not account for the timing of investment flows. The model performance may not reflect the impact that material economic and market factors had or might have had on decision making if actual investor money had been managed.

The model performance accounts for reinvestment of income and capital-gains distributions and assumes quarterly rebalancing. The model performance figures are calculated through March 2021 and blended with actual net of fee performance, which is then annualized on a 1-, 3- and 5-year basis. The model performance accounts for a 0.10% investment advisory fee and a 4 cents per share cost on all mutual funds and ETFs, but does not account for NPT charitable administration fees, trading costs or transaction costs associated with the management of the underlying portfolio. Performance of the DAF's investments may be lower or higher.

Model performance figures are replaced by actual performance figures starting April 2021, which is the first full month of available actual performance figures. Actual performance figures are combined with model performance and annualized on a 1-, 3- and 5-year basis. Returns are calculated using time weighted return ("TWR"), net of fees approach, which includes a 0.10% investment advisory fee and trading/transaction costs of up to 4 cents per share cost on all mutual funds and ETFs associated with the management of the underlying portfolio. The actual performance figures do not include the NPT charitable administration fees. The model and actual results together constitute the blended performance. Neither model performance nor past actual performance is an indication of future performance.

Investing in this portfolio involves risk. The principal value of investment will fluctuate and may experience loss of capital.

THE INFORMATION PROVIDED HEREIN IS NOT GUARANTEED THE INFORMATION CONTAINED HEREIN HAS NOT BEEN AUDITED AND NPT DOES NOT GUARANTEE ITS SUITABILITY FOR ANY PURPOSE. ALL INFORMATION IS SUBJECT TO CHANGE AND/OR WITHDRAWAL AT ANY TIME WITHOUT NOTICE.
